

SANMINA

Sanmina Global Services(SGS)

Enabling Customers To Focus On Their Core Business

El Paso, Texas & Juarez Mexico

Our El Paso, Texas and Juarez, Mexico facilities provide comprehensive logistics and repair services across North America. Strategically located near the US and Mexico border and El Paso airport, both facilities provide a full-range of services. Each operates as a Maquiladora — a free-trade-zone manufacturing

operation — to deliver low cost, quickturn repair and other product services. The El Paso facility specializes in logistic services, after market services and end-of-life solutions providing cross-border logistics, customer support, international shipping/trade compliance, product repair and maintenance, parts harvesting and recycling. Our Juarez, Mexico facility specializes in After Market and Engineering Services operating in a quickturn environment. From component-level repairs to full system refurbishment, our Juarez facility has over two decades of experience performing advanced testing and product repairs. This facility also performs no-fault found (NFF) screening and product salvage services. Our engineering services include failure analysis and reporting, sustaining engineering for legacy products, test and process engineering for new products
