

SANMINA

Sanmina Global Services (SGS)

Logistics, Repair, Integration & Fulfillment Services

Basingstoke, UK

Our Sanmina Global Services (SGS) Basingstoke facility delivers comprehensive logistics and repair services for a wide range of products. In operation for 20 years, this center provides support for products across several markets with a specialty in mobile computing, communications, radio and wireless scanning products.

Some of these products are encrypted or partially encrypted for professional and government customers. Broad services are available, including inventory management, logistics, product repairs, software configuration and programming, recycling and other aftermarket services. SGS Basingstoke repairs and deploys many of these products to customers in the UK and Ireland via same-day or next-day shipping. We manage these next-day deliveries or replacements to some of the world's largest brands.

Advanced Logistics and Repair

Sanmina is the premier partner for integrated manufacturing solutions and end-to-end services for Original Equipment Manufacturers (OEMs). Our Sanmina Global Services (SGS) organization enables customers to concentrate on their core business, with Sanmina optimizing their supply chain. Having become one of the world's most advanced logistics and repair organizations, SGS creates value by offering deployment and after-market services, end-of-life solutions and engineering services. With a single global IT system, SGS delivers real-time information and reporting, optimizing supply chain assets and costs for our customers. Our global footprint consists of 28 Sanmina Global Services sites and more than 30 partner-managed locations spanning 38 countries on six continent.
