Sanmina Oil & Gas has 20 years experience and is equipped with specialized manufacturing capabilities for meeting the high tech and high reliability needs of the Oil & Gas industry. We manufacture PCBAs, precision machined components and complex electromechanical assemblies for downhole, surface and subsea products.

**MANUFACTURING AND ENGINEERING SERVICES FOR YOUR MISSION CRITICAL PRODUCTS**

When It All Matters . . .

**Sanmina Oil & Gas** has extensive experience providing high-tech engineering services to bring your product to commercial realization. Offering mechanical, electrical, software and systems engineering design services, we can help bring your new product to market rapidly. Our engineers have helped our customers secure many of our industry’s most important patents.

**When more than just “Built-to-Print” matters**

Sanmina’s Oil & Gas manufacturing team ensures that your finished product will work as intended. Our manufacturing specialists and engineers make sure we understand your product, so that it performs as designed. With a solid design engineering group available, you can rest assured your product will be in good hands.

**When a proven track record matters**

Sanmina Oil & Gas has a proven track record of over 20 years providing design and manufacturing services to major oilfield equipment and service corporations. Our engineers are inventors on many industry patents. Sanmina Oil & Gas has delivered nearly a billion dollars worth of hi-tech equipment with excellent performance.

**Manufacturing and Engineering Services for your Mission Critical Products**

The Sanmina Oil & Gas Division was established in 2013 with the acquisition of a machining and mechanical assembly plant in Monterrey, Mexico. Founded in Silicon Valley in 1980, Sanmina is a major global manufacturing and engineering services provider with over 75 locations worldwide. In 2015, Sanmina acquired the CST Group in Houston. CST Group came to Sanmina with an established track record of over 20 years, providing manufacturing and engineering services to major oilfield services and equipment suppliers. In addition to Sanmina’s Oil & Gas locations, Sanmina also provides a broad range of mechanical and electrical engineering and global manufacturing resources. Division being the front line.
