

SANMINA

New Product Introduction

COMPREHENSIVE QUICKTURN & REGIONAL GATEWAY SOLUTIONS

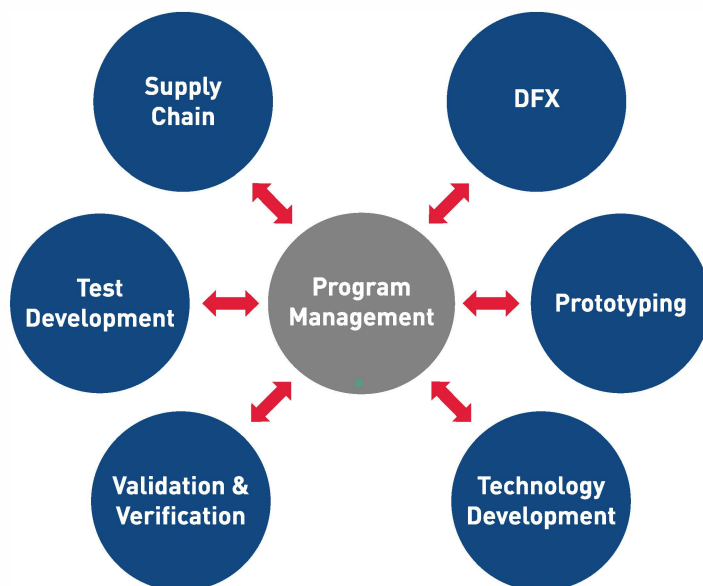

NEW PRODUCT INTRODUCTION: SPEED, FLEXIBILITY & LOCAL SUPPORT

With a global footprint of facilities in 21 countries worldwide, engineering resources of a Tier 1 EMS, and regional New Product Introduction (NPI) centers, Sanmina offers comprehensive services to bring your product to market: quickturn prototyping, product verification and volume production.

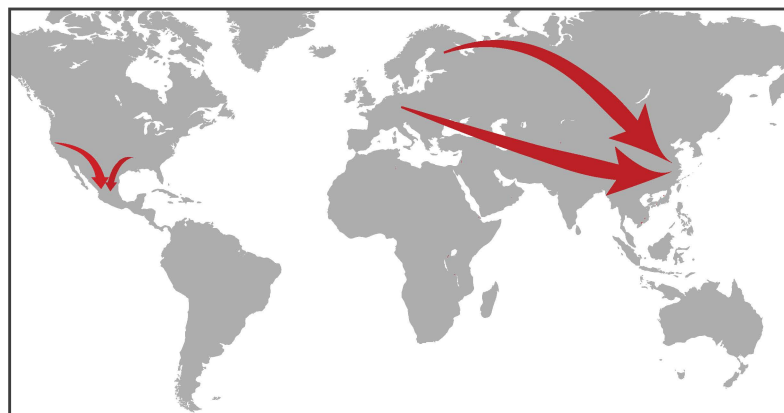

QUICKTURN SOLUTIONS:

- PCB
- PCB Assembly
- Test System Development
- Mechanical Design
- Failure Analysis Lab
- 24-72 Hrs. Cycle Time

NPI GATEWAY FACILITIES :

- Facilities Close to You with Proven NPI Experience
- Supply Chain Expertise
- Manufacturing Engineering
- Reliability Validation
- Test Systems & Software Development
- DFT & DFM Analysis

Gateway to System Integration & Global Manufacturing

ACCELERATE YOUR TIME TO MARKET WITH SANMINA'S IN-HOUSE FAILURE ANALYSIS LABS, TOOLING DESIGN AND FABRICATION

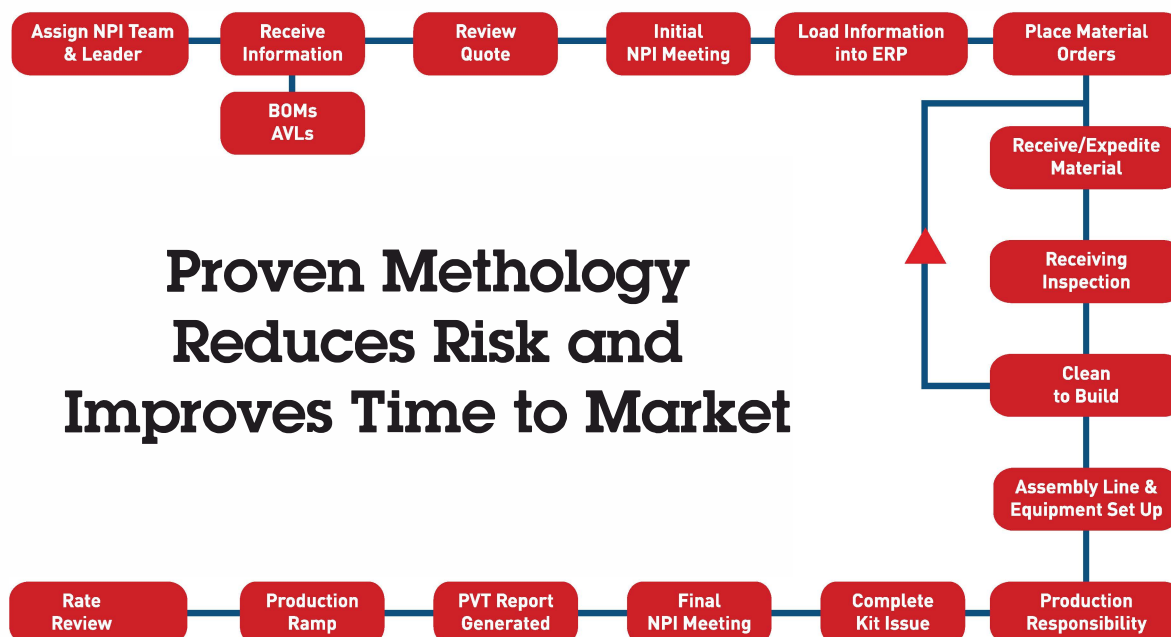

DESIGN, ENGINEERING & TEST DEVELOPMENT FOR A COMPLETE NPI SOLUTION

Companies come to Sanmina to solve their toughest challenges from initial design to manufacturing by leveraging comprehensive engineering, test development and supply chain resources.

NPI & TRANSFER PROCESS REFINED OVER MANY DECADES

Proven process and manufacturing tools & systems that enable Sanmina to introduce over 3,000 new products per year and ship over 100 million top level assemblies annually.

ABOUT SANMINA CORPORATION

Sanmina Corporation is a leading integrated manufacturing solutions provider serving the fastest-growing segments of the global Electronics Manufacturing Services (EMS) market. Recognized as a technology leader, Sanmina provides end-to-end manufacturing solutions, delivering superior quality and support to Original Equipment Manufacturers (OEMs) primarily in the medical, communications networks, defense and aerospace, industrial and semiconductor systems, multimedia, computing and storage, automotive and clean technology sectors. Sanmina has facilities strategically located in key regions throughout the world.
