

SANMINA

Cables
San Jose, CA

Quick Turnarounds and On-time Delivery

The Sanmina San Jose, California facility provides comprehensive cable technology development, reverse engineering, prototyping and manufacturing services. Supporting the Telecommunications, Industrial, Aerospace and Defense markets, Sanmina San Jose offers turnkey cable services. We produce cables for a broad range of applications, from microwave cable assemblies for high-speed telecommunications applications to complex cable harness assemblies for semiconductor equipment applications. Sanmina San Jose operations provide a fully integrated capability.

MANUFACTURING CAPABILITIES

- Cable Harness Assembly
- Electromechanical Assembly

ENGINEERING CAPABILITIES

- Application and Reverse Engineering
- New Product Introduction (NPI)
- Design for Manufacturing (DFM)
- PFMEA and Control Plans
- Lean Six Sigma

TESTING CAPABILITIES

- Hi-Pot
- Continuity, Isolation and Impedance
- Insertion/Pull Force
- Functional Test Technologies
- Crimping, Soldering
- Coax Products: SMA, SMB, SMZ, MMCX and BNC
- High-Speed I/O Cable Links

LOGISTICS SERVICES

- Post-Manufacturing Engineering & Quality Support
- 3PL, VMI and Kanban
- Repair and Reverse Logistics
- Product Life Spares Support

CERTIFICATIONS

- ISO 9001 & 14001
- UL/CSA
- AS 9100
- IPC-A-620
- IPC-J-STD-001
- TL 9000

ABOUT SANMINA CORPORATION

Sanmina Corporation is a Fortune 500 company and a leading global provider of integrated manufacturing solutions, components, products, repair, logistics and after-market services. Recognized as a technology leader, Sanmina provides end-to-end manufacturing solutions, delivering superior quality and support to Original Equipment Manufacturers (OEMs) primarily in the communications networks, cloud solutions, medical, defense and aerospace, industrial and automotive segments. Sanmina has facilities strategically located in key regions throughout the world.
