

SANMINA

# Sanmina Global Services (SGS) Markham, Canada

## Providing Low-Cost, Quickturn Logistics and Repair Services

Our Sanmina Global Services (SGS) Markham facility is strategically located, providing quick-turn logistics and repair services to both Canadian and northern U.S. markets. Our Markham facility has years of experience delivering logistics, aftermarket, end-of-life solutions and engineering services for the world's leading Original Equipment Manufacturers (OEMs). SGS Markham delivers a broad range of services including depot and on-site repairs, refurbishment, component engineering, software/firmware updates, no-fault found (NFF) screening and product reclaim services. Our engineering services include failure analysis and reporting, sustaining engineering for legacy products, test generation and process development for new products.

**Advanced Logistics and Repair** - Sanmina is the premier partner for integrated manufacturing solutions and end-to-end services for Original Equipment Manufacturers (OEMs). Our Sanmina Global Services (SGS) organization enables customers to concentrate on their core business, with Sanmina optimizing their supply chain. Having become one of the world's most advanced logistics and repair organizations, SGS creates value by offering deployment and after-market services, end-of-life solutions and engineering services. With a single global IT system, SGS delivers real-time information and reporting, optimizing supply chain assets and costs for our customers. Our global footprint consists of 28 Sanmina Global Services sites and more than 30 partner-managed locations spanning 38 countries on six continents.
