

SANMINA

Cables
Zhangpu, China

**Quick Turnarounds
and On-time Delivery**

The Sanmina Zhangpu, China facility specializes in the latest manufacturing technologies for cable harnesses, backplane assembly and electromechanical assemblies, including insert molding, ultrasonic welding, high-speed cable, mini USB cable and filter cable assembly.

MANUFACTURING CAPABILITIES

- Cable Harness Assembly
- Electromechanical Assembly

ENGINEERING CAPABILITIES

- New Product Introduction (NPI)
- Design for Manufacturing (DFM)
- pFMEA and Control Plan
- Tooling Design
- Product Extension
- Capability Studies
- Process Continuous Improvement

TESTING CAPABILITIES

- Hi-Pot
- Continuity, Isolation and Impedance
- Insertion/Pull Force
- Functional Test
- X-Ray

TECHNOLOGIES

- Molding, Crimping and Ultrasonic Welding
- Termination by Application Crimps, IDC and Soldering
- Coax Products: SMA, SMB, SMZ, MMCX and BNC
- High-frequency Soldering, Resistance Soldering and Fine-line Soldering
- High-speed Cables
- Lead-free Manufacturing

LOGISTICS SERVICES

- C-TPAT Compliance
- Repair and Reverse Logistics
- 3PL, VMI and Kanban
- Post-manufacturing Engineering and Quality Support

CERTIFICATIONS

- ISO 9001, ISO 14001
- IATF 16949, ISO/TS 22163
- TL 9000, UL/CSA

ABOUT SANMINA CORPORATION

Sanmina Corporation is a Fortune 500 company and a leading global provider of integrated manufacturing solutions, components, products, repair, logistics and after-market services. Recognized as a technology leader, Sanmina provides end-to-end manufacturing solutions, delivering superior quality and support to Original Equipment Manufacturers (OEMs) primarily in the communications networks, cloud solutions, medical, defense and aerospace, industrial and automotive segments. Sanmina has facilities strategically located in key regions throughout the world.

Sanmina Corporation is an EEO/AA employer ©2024 Sanmina Corporation. All rights reserved. Sanmina® is a registered trademark of Sanmina Corporation.
